Monthly General Fund Receipts through November 30, 2011

The spreadsheet at the end of this document presents FY 2012 General Fund total net receipts with comparable figures for actual FY 2011. The figures can be compared to the FY 2012 estimate of \$5.895 billion set by the Revenue Estimating Conference (REC) on October 14, 2011. The FY 2012 estimate is an increase of \$81.8 million (1.4%) compared to actual FY 2011 total net receipts (excludes transfers). The next REC meeting has been scheduled for December 15.

FY 2012 Compared to FY 2011

Year-to-date FY 2012 total net receipts (excluding transfers) decreased \$18.9 million (-0.8%) compared to FY 2011. The FY 2012 net General Fund revenues will be negatively impacted by a law change that requires the first \$106.0 million of cigarette and tobacco tax revenue to be deposited in the Health Care Trust Fund (HCTF). Without this deposit change, net General Fund receipts would be up 3.1% for the fiscal year. Major revenue sources and their contribution to the FY 2012 change include:

- Personal income tax (positive \$48.4 million, 3.9%)
- Sales/use tax (positive \$36.1 million, 3.5%)
- Corporate tax (positive \$28.3 million, 23.1%)

- Other taxes (negative \$92.9 million, -48.6%)
- Other receipts (positive \$5.5 million, 4.7%)
- Tax refunds not including school infrastructure refunds (negative \$18.5 million)
- School infrastructure sales/use tax refunds (negative \$25.6 million)

Personal Income Tax revenue received in November totaled \$280.8 million, an increase of \$4.6 million (1.7%) compared to November 2010.

The FY 2012 REC income tax estimate of \$3.590 billion represents a projected increase of 3.7% compared to actual FY 2011. Through November, gross income tax receipts increased \$48.4 million (3.9%). By subcategory, withholding payments increased by \$30.8 million (2.8%), estimate payments increased \$10.2 million (9.3%), and payments with returns increased by \$7.4 million (18.6%). The following graph on the left compares FY 2012 monthly income tax receipts for the three personal income tax subcategories to FY 2011.

Sales/Use Tax receipts received in November totaled \$317.6 million, an increase of \$10.5 million (3.4%) compared to November 2010.

The REC estimate for FY 2012 sales/use tax receipts is \$2.433 billion, an increase of 2.2% compared to actual FY 2011. Through November, sales/use tax receipts increased 3.5%. The preceding graph on the right compares FY 2012 monthly sales/use tax receipts with FY 2011.

Corporate Tax receipts received in November totaled \$16.0 million, a decrease of \$0.6 million (-3.6%) compared to November 2010.

The REC estimate for FY 2012 corporate tax revenue is \$432.7 million, an increase of 9.7% compared to actual FY 2011. Through November, corporate income tax receipts increased 23.1%.

Other tax receipts received in November totaled \$7.5 million, a decrease of \$16.7 million (-69.0%) compared to November 2010. Other tax receipts will be negatively impacted in FY 2012 due to a 2011 law change that altered the destination of \$106.0 million in cigarette/tobacco tax revenue. This change will decrease State General Fund revenue and increase revenue to the Health Care Trust Fund.

The REC estimate for FY 2012 other tax revenue is \$338.6 million, a decrease of 23.5% compared to actual FY 2011. Through November, other tax receipts decreased 48.6%.

Other receipts (nontax receipts) received in November totaled \$35.7 million, a decrease of \$0.1 million (-0.3%) compared to November 2010.

The REC estimate for FY 2012 other receipts revenue is \$342.6 million, an increase of 1.3% compared to actual FY 2011. Through November, other receipts increased 4.7%.

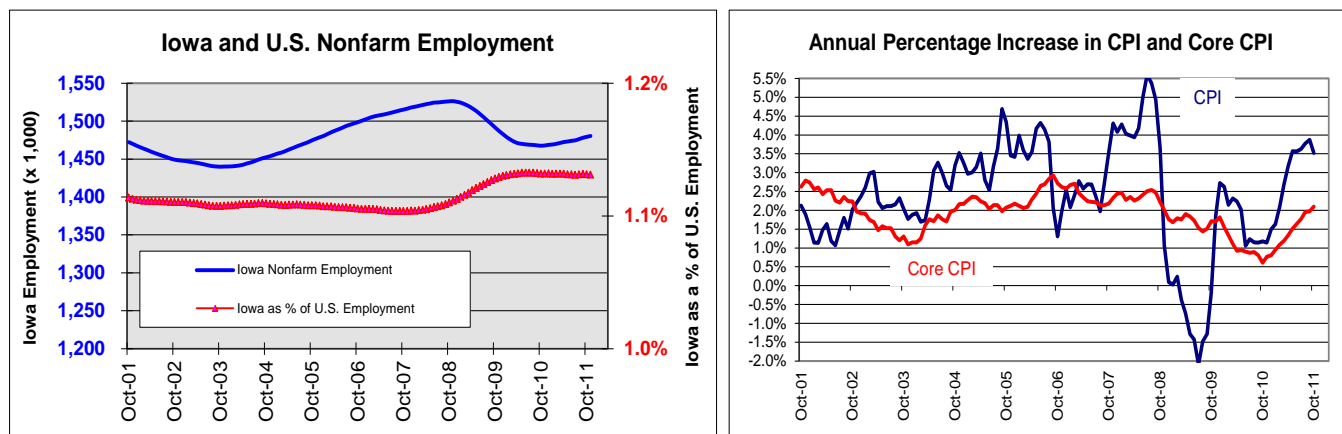

Tax Refunds issued in November totaled \$56.9 million, an increase of \$2.7 million (5.0%) compared to November 2010. In addition, school infrastructure refunds totaled \$33.7 million for the month, a decrease of \$0.3 million compared to November 2010.

Status of the Economy

Iowa nonfarm employment was reported at 1,504,800 for the month of October (not seasonally adjusted), 13,300 higher (0.9%) than October 2010.

Iowa's 12-month average employment is presented as the blue line on the following graph. Iowa's average nonfarm employment peaked in October 2008 at 1,526,400, and was 47,700 above the peak prior to the previous recession (January 2001). The current 12-month average reading is now 1,480,500, resulting in an annual average Iowa nonfarm employment level 45,900 below the October 2008 peak but 1,800 above the January 2001 peak.

The employment graph also presents Iowa nonfarm employment as a percent of U.S. nonfarm employment. Iowa's share of U.S. nonfarm employment decreased noticeably from 1999 through 2002, decreased at a much slower pace from 2002 through 2007, and increased from January 2008 through June 2010. Since that time, Iowa's percent of U.S. employment has declined slightly.

The Consumer Price Index (CPI-U) through October 2011 was 226.4 (1983/84=100). Consumer prices declined 0.2% in October (not seasonally adjusted) and the annual rate of inflation stands at 3.5%, down from 3.9% the previous month.

Core CPI, an inflation measure excluding food and energy expenditures, increased 0.2% in October and totals 2.1% year-over-year. The core rate of inflation bottomed at 0.6% in October 2010 and has increased every month since. For the two components excluded from the core rate, energy prices are up 14.2% year-over-year while food prices are up 4.5%.
